Name: _____

The Human Body Systems

Excretory		 <p>A diagram of the human excretory system. It shows two red kidneys in the upper back, connected by blue and red vessels to a central column. From the bottom of each kidney, a red ureter leads to a yellow bladder. The label 'N' is on the left side of the kidneys.</p>		
Respiratory		 <p>A line drawing of the human respiratory system. It shows the trachea (windpipe) leading from the throat to the lungs. The lungs are shown with branching bronchi. The diagram is split vertically to show the internal structure of both lungs.</p>		
Skeletal		 <p>A full-body illustration of the human skeletal system. It shows the skull, spine, ribs, pelvis, and legs. The bones are colored in a light tan color. There are small black lines pointing to various parts of the skeleton, but no text labels are present.</p>
